

13th International Conference on Industrial Systems Engineering & Logistics ICISEL'13

31 October – 1 November, 2013

Call for Papers

About ICISEL'13

The conference brings together academics and practitioners from around the world with an opportunity to discuss current issues in Industrial Systems Engineering & Logistics. It aims to provide an international forum for leading researchers, educators, software developers, and practitioners to discuss about the current issues, share ideas and experiences on the latest development in the field of Industrial Systems Engineering and management science; and seek opportunities for unfolding the new era of business collaboration through Logistics & SCM systems in the global market.

The ICISEL 2013 will take place at Ho Chi Minh City University of Technology, Ho Chi Minh City, Vietnam. We look forward to your contribution to the conference and we wish to meet you in Ho Chi Minh City in October.

Topics of Interest:

- *Logistics & Supply Chain Management*
- *Operations Research/Optimization*
- *Decision Making Modeling & Analysis*
- *Lean manufacturing*
- *Work design & Time Study*
- *Production system design, planning & control*
- *Quality control*
- *Total Quality Management*
- *Modeling & Simulation analysis*
- *Inventory management*
- *Scheduling in manufacturing & service systems*
- *Human factors/Industrial Ergonomics*
- *Green manufacturing*
- *Green logistics*
- *Strategy planning*
- *System Engineering & Management*
- *Port operations & management*
- *Freight transportation*
- *Facility layout and Location*
- *Total productive maintenance*
- *Others*

Key dates

Abstract Submission:	25/06/2013
Notification of Abstract Acceptance:	10/07/2013
Full Paper Submission:	25/08/2013
Notification of Paper Acceptance:	25/09/2013
Author registration by:	25/10/2013

Conference Chair/Co-chairs:

Dr. Do Ngoc Hien
Prof. Nam Ki-Chan
Prof. Kim Hwang-Seong
